DOLEN, Esq. ng their newly-invented apparatus and it These are all able and distinguished Although we hould reasonably exp c gentlemen, who thoroughly understand the om this more efficient and extensive ap situation, are all long-tried Union men, dication of a well-tested principle many and they should lose notime in organizing valuable results, we were not prepared for

Kentucky. The times demand prompt marked structures which the new appar and energetic and well-directed action. The Union men of the State are ready Judging from experience, we suppresed will give a good account of them. that pain would be more efficiently reselves. Reports from various parts of the interior begin to reach as cheeringly. A at torpor or fee'le vitality aroused by the proper organization only is wanted to innew apparatus., but, in practice, its powe be a general renovator of life, by taking upon the future of Kentucky, and, largely, rpon the great question of national reconoff a portion of the fifteen pounds of atnospher'c pres ure which rest upon ver quare inch of the body and thus enabling

the forces of a glorious Union victory in

Affairs in Louisiana. A correspondent of the Boston Post, writing from New Orleans, draws a gloomy picture of things in Louisiana. We quote

ing chamber, from which the air is partial extracted, a glowing circulation s pro Things here are very gloomy. Over rain, cold, want of means and want and such a renovating impression on the labor, conspire to crown our calamirst tution as to cure most cases of agu are more or less under water, and the acility. paralysis, ucuralgia, an l a host o small but thrifty crops have disappeared emplain -, for which no one ever expe from the gaze of those whose hopes rested moon th mf r bread. Under these are mulated miseries, there have been men who, under the plea of assisting the farm o force the conc'usion that the result ar ers, kindly advanced them money upon first mortgage, at the modest interest iving to every nerve, eapillary and fibrate due supply of arterial blood. There is really nothing more w nderf haps you don t believe the statement. I vertbeless true. The reason given for han this in the history of medical in rised if this mechanical or atmosph state of our political affairs, and the uneatment of disease should rank, in th Were you to see some of the pay-rolls story of the times with the discovery ic application of other eldoroform, and plantations, you would suppose they had the nitrous oxyde gas. Indeed, it promis had the small-pox. Each week brings its

and others newly employed. There is really no system.
"One thing I wish to ask you, in the hope that some wise man in your neighborhood may give a practical and square answer to the same. How is it that freedmen work better and are more contented where no Freedmen's Burean exists than where one is established? Permit another nanor born' more harsh with the freedsen than those who have grown up with em? Do not think me impertinent. bey as well understood, or even as much tht over, as are the many isms which es the public mind, there would wanifested, and a fair prosright and justice would again What is one State isolated from | not known what it was to be free of pain in mere cipher What inter-

multiplied changes of hands discharged

blotting out the great al at the South, when, by so doing, he loses all the rights of citizenship he en , If the people of the North will send

out here a committee of plain, practical farmers to 'spy out the land' and take their report under consideration, they forty Congresses. Another writer says there will be a famine Lou ana and Mississippi before

an mer year. Many planters neglected to plant corn, etc., hoping for an immens yield of cotton and ag prices. Large portions of those States, especially of Louisiana, have been overflowed, and neither cotton nor corn will be raised to any exicat. The planters are out of money and out of provisions, and with very little

people of the interior provisions from the th. We think some stops should be taken toward that end at once It would be casting bread upon the waters indeed but when they subside it would all come back to us again with increase. Such a measure would have a good effect politically and in every other way. It is but too evident that the South is in sore distrem and needs help, material aid. N w is the time for the rich and populous North to open her purse-strings and show her liberality. It would be most grat fal to the poor people of the South. It would do much to soothe and tranq lize. It ould have a strong tendency to make them loyal, if they are not so now, and to hind them to the Union with hooks strong

Let the old animosities be forgotten, and the religion of hatred be exchanged for

How the Tide is Setting. The Richmond (Ky) Register of the 5th instant contains the following straw, which shows how the wind blows:

which shows how the wind blows:

UNION POREVER.—Our friends in Clarke are up and doing. At a recent election for Police Judge of the town of Winchester. Captain Sam M. Boone was elected by a handsome majority over one Mr. Beckner. A convention of the old State Rights party of 'Gl met in that place on last Monday week and mominated as candidates for five of the most prominent offices persons who had served in the rebel army uring the war. We shall expect the nommers of that convention to be handsomely defeated, and a good majority for the enernot mere practit oners of this mechanic rocess, but treat their patients by med This invertion and application are no and familiar It was recommended in Paris ly high authority some fifteen twenty years since but did not come in much use, possibly on account of the ex pensiveness of the apparatus. It was warm defeated, and a good majority for the ener-eric Bolling.

The Union men of Kentucky are beginy recommended about that time by Dr Breckler, of Baltimore, and Prof. Buchanan

ging to understand the situation, and will at Cincinnati. Dr. Buckler published son be in motion throughout the State Push on the column. Organize in every county. Let the people know that the seed of the repulsive old secession serpent is again raised and must be crushed once

remarkable illustrations of its 10 weramong others, remarkable eases of inte Buckler, almost destitute of apparatu anthorize us to expect the most brilliant achievments from the apparatus used l Dis Limeriek and Storkey. A New Rumor.

It is now rumored that the editor of the

Courier, disgusted at the poor prospects o his party, intends to quit politics and take orders in the church! The rumor receive strong confirmation from the fact that he oted seven columns of his editorial

rday morning to church af equally objectionable. It says: "With out an amendment to the Constitution, the him, however, without proofs of thorough power to regulate the exercise of the right ntance. He must wear sackcloth, and to vote within the several States cannot be peas in his shoes for at least one year, exercised by Congress, and the attempt to valk to the site of Camp Dick Robin force upon any particular State or State the adoption of a policy upon this quesand and back once every three weeks at all the others is an open violation of the principles of our form of government." THE TREATY OF 1815.

Main Points of the Treaty of Vienna and the Holy Alliance

As the treaty of Vienna may once mor be made the stalking horse of Bonapartis ambition, it may be interesting to the gen eral reader who is more learned in presen

ile was not unwe come for the sake

rule was not unwelcome for the sake of Europ generally she undertook the protectorate of the Ionian Islands, now got rid of and to satisfy public projections of the Ionian Islands, now got rid of and to satisfy public projects she also preserved the kingdom of Hanover, now also got rid of In Italy Milan and Venice were given to Austria, and Sardhiia was confirmed to Predment, while the duchies of Tureany, Parma, M. dana and Piacentia were recipized as sham independent soverequities as sometimed by the collatoral branches of the Austrian Happing Austria still within of tained possession of the Tyrol. It with and Palmatia.

Prus ia a gains were chormous, and, un-

searly all Westphalia, Swedish Pemerania, and almost all the Lower Rhine provinces, the started afresh as a rival of Austria far mere formidable than before. In the North of Europe Russia received Fiuland from Sweden, as a compensation for which Sweden received Norway, which sweden received Norway, who was not represented at the Congress, at uothing in return

As to Poland, the three great partitioners made some tresh rectification of

indarie: The innumerable small German State-hick had existed before the French revo 410n, and which had been what diplo

lation, and which had been what diplolate call mediatized or, as plain people
call it, swintped, at the setting up of the
Benapartist Confederation of the Rhine—
these all remained swallowed up by their
powerful neighbers
Holland, having ceded her German posessiors, was consoled with the Belgio
previnces, and became a kingdom, and
Switzerland remains much as before.
In the same year, 1815, pharisaism accomplished its masterpiece, the "Holy
Allance, between Austria, Russia, and
Plussia, by which they bound themselves
to act for the future on Christian principles
only, and immediately proceeded to enforce the absolute supremacy of kings as
the one great principle of Christianity
All Europe acquiesced in the announcement, with three notable exceptions—the ultan, whose opinion was not asked, and ingland and the Peye, who both declined of have anything to do with the imposture

was as ready to recall as to otter an unjust rebuke is not, perhaps, as well known to the public as it should be. I was witness, accidentally to an incident illustrative alike of his impatient spirit and real gentlemanhood. It occurred while he was yet Commander-in-Chief, though I cannot now fix the exact time. Its office was on Seventecuth street, opposite the War Department. His carriage stood at the covering at the instant that he was common out for a ride, I passed to see him. Kind.

The Situation in Florida. New York, May 16, 1866.

To the Hon. Thaddens Stevens, Chairman

WM MARVIN, WILKINSON CALL FERDINAND McLEOD

THE LEAD AND FLOUR MUR-DER.

Additional Details—Claim for Damages against the Miller who made the Flour—A Sub-ject for the Health Officer.

Our informant on Thursday made a visit the mill at Philipstown and converse in the miller, Mr. Thomas Marsh. The

At first it was thought that some persons had, through malice, poisoned the our or wheat; but as soon as it was posively known that the lead was the cause, is set of stones containing it were at nece stopped, and every effort made by Ir. Marsh to call in all the flour which had een ground on that stone. This amount do satty-one barrels, which were sent to are informed, to Capt. Corwin, the liddleton agent of Mr. Marsh, with in tretions to dispose of it to starch many acturers in the city of New York. Mr darsh is unable to state positively that the lour has been used for that purpose, as it was sold at about \$4.50 per barrel. It is possible that it may have been reposched.

PHILLIPSBURG MILLS. FAMILY FLOUR. From Selected White Wheat 170, Thomas Marsh.

Had Marsh put in new stones, and not a ed the old ones until they required such extensive repairs. probably this terril be residually would have been averted, yet a new stone was lying by the door, which had on its face a hole, to fill which with had would require about half a pound. The face of this cavity was fally as large as a hors segs, and Mr. Marsh assured me that after it had been in use for a time there would be many just like that one, and that millers in general throughout the country were in the habit of using lead as a cement for grist stones. If this be true, measures should at once be taken to probabit its use about all mills.

A family named Brundage, some of the members of which worked in the mill, have been seriously affected, and Mr. Brundage claims \$750 damages. If we indenstood correctly, he was the person who urged the use of lead.

There is no question but that Mr Marsh was entirely ignorant of the poisonous properties of lead, and supposed that because lead in its metalic form did not always cause ead in its metalic form did not always cause lead in the metalic form did not always cause lead in its metalic form did not always caus Had Mar-h put in new stones, and not

into the system in such large quantities, for it was that which brought on the womit-nings and threw off very much of the poison before it had sufficient time to act with its Having had a long interview with Mr. Mirsh, our reporter drove to Goshen, where, in a shore time ullotted to him before the starting of the train, he conversed with several persons who were acquainted with the facts stated, and all add their weight of testimony to that already furnished, showing conclusively that over 300 persons in a radius of about twenty miles have been affected with bad, poisoned flour, which came from the Phillipsburg mill. This should be a warning to millars and a caution to the buyers and consumers of flour, and physicians and Boards of Health should examine all the flour mills of the country, and by so doing prevent the recurrence of such cases as we have rendered in our letters.

A NEGRO EMPIRE IN THE SOUTH. Singular Offshoot of the Freedman's Bureau.

A correspondent of the New York Herald writes from Jacksonville, Florida under date of May 23, an account of the recdinen in the Sea islands. We extract

The Fenlans---The Informer Warner Stabbed in his own flouse.

Murder! when Tormy ran out without vaiting to dress, revolver in hand, but too ate. Dr. Rorke, of Boldyle, was immeliately sent for, and arrived about eleven velock, when he bound up the wound and stopped the hemorrage. The contabulary were instantly in motion to irrest the fugitive Head Constable Keown, having sent his men out in all lirections, took a car himself and drove rapidly into town, rousing the constabulary was a supply into town, rousing the constabulary was supply into the constabulary was supplied to the constabulary w

it very warm approval from his super

At the close of the war he was breveted Major-General of volunteers for distinguished conduct in the field. Then came Fenishism. At the Philadelphia Congress he tendered his services, which were accepted. The listory of Fenianism is too well known to need recapitulation here. So flice it to say that General Sweeny is regarded as the military leader of the neovement at present, and to-morrow morning will be on the Canadian frontier endeavoring to "raise the green above the red. He speaks with confidence of his cause, but you will be able to judge of that natter before this letter is in print. At the close of the war he was brevet
